- Hello, can I help you?
- Yes, I think so. We have to make an essay about the history of our town. I thought there will probably be some interesting material here.
- Yes, if you are doing a research we have some absolutely unique sources in here, Like old brochures, newspapers and magazines. They are in the archive, but you can use them to a request.
- Can I borrow them for a day or two to work at home?
- Absolutely not! They are to use here only!

- I don't think you can find anything really interesting on web. But if we go upstairs to gram's room..
- Why?
- When I was small she shoved me mother's collections of news clippings, old photos, letters and postcards. She kept all of it in her chest of draws. And I'm sure the collection is still there.

Speaker A

I didn't plan it actually. It was my aunt who suggested that I should join them. She and my cousins were going to spend a few days at the seaside. And my aunt asked mum to let me go with them. We got to the seaside by train. It took a bit longer than I'd expected, but it was fun because of my cousins' company. We played Scrabble and watched films. At the seaside, we stayed in a small family hotel. We swam, and went fishing, and explored the nearby rocks. It was a short but great getaway.

Speaker B

Recently we spent a week in a small village by the seaside. What impressed me most was not the sea but the garden in the hotel where we were staying. The owner of the hotel was an elderly man who was crazy about gardening. He told me a lot about his plans and even gave me the seeds of some exotic flowers I can grow at home. When we got back, I planted them, and... I didn't expect them to grow but they did! And they are growing fast! My friends are really surprised to see how much time I give to my flowers but it's a really exciting pastime.

Speaker C

I haven't been to the seaside for six years already. It's really hard for a person who loves the sea and all sorts of water sports. Fortunately, this June I'm joining my friends for their windsurfing vacation. Now I'm saving for the trip. I have already bought some of the equipment and a friend of mine has promised to give me a few lessons on how to windsurf. It's not easy, I guess, but I enjoy trying new sports whenever I can.

Speaker D

I enjoy travelling and an active lifestyle and spend as much time out as possible in the open air. I love jogging, and roller skating, and cycling of course. The best time for all these activities is September and October when it is not so hot and stuffy as in summer and the air is fresh. The trees and landscape in autumn are beautiful too. Unlike most people I do not look forward to the summer. I look forward to the time when it's over, to enjoy the most beautiful time of the year.

Speaker E

When I'm on holiday, I want to have some quiet time for myself. I don't need company when I take a ride on a bicycle along the country lanes or when I try to do a drawing of a beautiful landscape. My friends suggested that we go to the seaside this summer and were not able to understand why I refused. They said that I just didn't want to spend the holidays with them. They are sort of ignoring me now. It makes me feel sad.

A — 5: It was my aunt who suggested I should join them. She and my cousins were going to spend a few days at the seaside. <...> We got to the seaside by train...

B — 2: My friend are really surprised to see how much time I give to my flowers...

C — 6: Fortunately, this June I am joining my friends for their windsurfing vacation.

D — 1: I love jogging and roller skating <...>. The best time for all these activities is september and october...

E — 4: My friends suggested that we go to the seaside this summer and were not able to understand why I refused.

Jane has her aerobics class

- 1) at weekends.
- 2) every day.
- 3) on weekdays.

Пояснение.

- Hi Jane.
- Oh, hi, Alan! It's very cold today, isn't it?
- Yes, Frankie and I wanted to stay at home, but naturally my dog wants his walk every day and in any weather. And where are you head to, on Sunday and so early?
- To the gym. I've got my aerobics classes at the weekends.
- I would do it week days.
- I would too, but the gym is packed and the only class they could find for me is at 8 o'clock on Saturdays and at 7.30 on Sundays.
- Oh, is it really so good for your health that you prefer it to an extra hour of sleep?
- It's not for my health actually. If I miss the class and sleep late I feel sort of depressed and unhappy during the whole day. But an hour of aerobics in the morning makes me feel recharged and full of energy and something in this lines.
- I see. Are there many people in your class?
- 12. They are all nice. But I can't say I've made many friends there.
- It happens.
- They are always talking about how to lose weight and about health diets which I was bored to eat tasteless purge and boiled vegetables.
- It's because you don't have any problems with your weight.
- Probably. I never stayed at any diet and I never calculate my calories I adore chocolates and creamy cakes and can never resist them.
- Neither can I.
- The only thing I avoid is fast food like chips and hamburgers. I just don't like them.
- I see. Unfortunately it's not easy for me to avoid them. When I work on the computer I usually get very hungry and eat lots of chips and pop corn. And I'm always on my computer as I plan to go to the faculty of information technology.
- I see. I spend a lot of time on my computer too. I'm going to try to get into journalism.
- Really?
- Yeah. I enjoy writing about what's happening around. The news and reports on events. One of my reports was about my aerobics coach. She is a remarkable woman and wonderful teacher too.
- I never write about anything but I like watching news and documentaries on TV.
- I watch only documentaries. Actually I have no time for melodramas, detectives, endless serials and so on. I sometimes watch animated films with my sister. But it's only because she likes cartoons very much.
- And have your marks been published anywhere?
- Yes. In a local news paper and I am actually planning to work for them next year.
- Aren't you going to stay at school for 2 more years to get ready for you're A level exams.
- I want to understand what real work is and what's about A levels I'll prepare for them on my own. I plan to take them in 2 or 3 years anyway. When I decide what university to choose.

Задание 9 № 578 тип 9

Прочитайте тексты и установите соответствие между текстами A–G и заголовками 1–8. В ответ запишите цифры, в порядке, соответствующем буквам. Используйте каждую цифру только один раз. В задании есть один лишний заголовок.

1. Historical facts
2. Different reasons for drawing in the street
3. A street art exhibition
4. A commercial effect
5. An innovative method
6. An unknown artist
7. The meaning of the term
8. Keeping their names secret

A. Street art can be described as art that is developed in public spaces and above all in the street. It can mean a lot of different things including graffiti, poster art, wall paintings, and just about any artwork that is displayed in public places. Typically, street art is used to separate public-space artwork from illegal graffiti and vandalism.

B. The start of street art is closely connected to graffiti, which appeared in New York in the 1970s. The American artists soon became an inspiration for a number of other young street artists all over the world. For the following ten years graffiti grew more and more popular and was soon joined by new forms of street art including street installations, street sculptures and 3D pavement illusions.

C. Street artists are often associated with opposition. Their artwork is considered a crime and vandalism and the artists may be arrested for damaging property so the artists prefer to use nicknames and create their drawings mostly at night. They are not looking for fame, especially in countries where graffiti is still illegal.

D. Kurt Wenner was the one who developed an absolutely new form of street art. That is 3D pavement art. He started his career as a graphic artist but after moving to Italy he worked on a new technique. Wenner attracted the attention of the entire world with his remarkable 3D artwork and he also inspired a future generation of 3D pavement street artists.

E. Banksy is probably the most famous English street artist who has already become a legendary figure. It's still true that no one knows who the person really is. However, his works are exhibited in galleries across the world. An American magazine even named him among the top most influential people in the world. However, he was the only one whose photo the magazine could not publish.

F. The motivations and ideas that inspire street artists are as different as the artists themselves. Some street artists, by creating certain works, want to draw attention to social and political problems. For other artists, street art is just a form of self-expression. And there are those who enjoy the challenge and risks which are connected with working illegally in some city areas.

G. Traditional graffiti has recently been used as a successful method for advertising. Lots of companies agree that traditional advertising on city streets is too boring and common so many people simply ignore it.

However, graffiti adverts catch your attention, creating a memorable image. Big companies find this quite useful and try to include more elements of graffiti in their advertising campaigns.

From Russia with love

The followers of my blog may be interested to know that starting from now I'll be sharing my experience of living and working in a new country. Right at this moment, I, Andrew Carter, am writing my blog from a very remote place in Russia.

When I accepted the offer of the international ecological group to take part in the project in the Russian North, I never expected the experience would be so amazing. As a professional ecologist I have worked in different parts of the world, but never in Russia. A trip to the north region of the country looked really challenging. Now I see that it is a very special place. My journey is to last for two months and now I wish I could stay here longer. Two months are definitely not enough to enjoy the beauty of this place, which is called the Kenozersky National Park.

Anyway, my adventures started two weeks ago. Patrick and I landed in Moscow at 10am in the morning and our plane to Arkhangelsk was at 11pm so we had the whole day to see Moscow. We did not need to stay in a hotel at that.

My first impression was that, well, Moscow is a huge city! My colleague, Patrick, who's visited Moscow several times already, told me that the best way to get some idea of the Russian capital was to take a bus excursion round the city. And he was right!

We managed to see the historical centre, and walked across Red Square. I have to confess that I've never seen a square so huge and grand. Then the bus took us along the wide streets and avenues. We made a brief stop near the famous Russian university - the Moscow State University. I had certainly seen the building in the photos, but in real life it looks even more impressive.

When the excursion was over, we found ourselves in the centre again. We still had plenty of time and decided to visit the State Historical Museum that is on Red Square. We only managed to see a small part of the vast collection of the museum. Its exhibitions range from relics of prehistoric tribes that lived on the territory of present-day Russia centuries ago to priceless pieces of art that belonged to the Romanov dynasty.

After the intense cultural programme, we were just walking along the streets. Then we dropped into a small restaurant and ordered some national dishes. They tasted unfamiliar, but I liked them.

The next day we got to our destination.

Kenozersky National Park is exactly at the border of the Arkhangelsk Oblast and Karelia. The park is centred round the Lake Kenozero, one of the largest lakes in the region. The Russian colleagues met us at Arkhangelsk airport and drove us to the place where we were to live and work for two months. It was a long drive but it was worth it!

As I've already mentioned, the national park is a very remote place. Three quarters of its territory is covered with taiga. The environment is untouched, and we were charmed by its beauty. The park is inhabited by a great variety of animals and birds. Some of them are extremely rare species. It's actually a paradise for a person who studies nature!

However, the place is not only interesting for nature lovers like me. In spite of the remoteness of the place, there are tourists from all over the world here. They are charmed by the wooden architecture of the

region. There are many authentic wooden houses and churches with wonderful painted ceilings. Some tourists, including the people from America and Asia, come specially to attend carpentry courses and workshops, where skilled craftsmen teach them to make traditional wooden toys, furniture, and home decorations. Some of their works are real pieces of art.

I have to stop now as we are setting off to the lake. The story is to be continued...

... What are your career plans? What two criteria will be the most important in choosing your future job? What career do your parents advise you to choose?...

Write her a letter and answer her 3 questions. Write 100–120 words. Remember the rules of letter writing.

Пояснение.

Dear Ben,

Thanks for your last letter. I'm sorry for not writing you for so long. I spent time doing a school project.

If I were you, I would join the family business. Talking about my career plans I would like to become a lawyer. I think that it's a very noble and respected post. The main criteria for my future job are usefulness and profitability. I want to be useful for other people but the financial part is also significant for me. My parents advise me to become a doctor but I'm not sure that the job is appropriate for me.

Write back soon.

Best wishes,

Emma

The carrot is a root vegetable which consists mostly of water and sugar. The carrots that we eat today originated from the wild ones which grew in Europe and Asia. The vegetable tasted sweet and the people began to use it as food.

There are two main types of carrots. There are eastern carrots that have dark purple roots and western carrots with orange roots. In fact, orange carrots first appeared in Europe in 1721. Dutch farmers selected orange carrots because orange is the colour of the Dutch Royal Family. Now orange carrots are widely grown all over the world. In modern households carrots are cooked and eaten in different ways. The vegetable is boiled, fried, baked and eaten raw. People also make juice from it.

You are going to give a talk about the Internet. You will have to start in 1.5 minutes and will speak for not more than 2 minutes.

Remember to say:

- why today's teenagers use the Internet so much;
- how the Internet makes long-distance communication easier;
- what dangers teenagers can face when they use the Internet.

You have to talk continuously.

Пояснение.

I would like to start with the idea that almost every modern teenager has a gadget with the Internet access. Internet has become widespread all over the world. And the majority of people daily use it. Speaking about the teenagers, I think that they use Internet too much. One of the main reason of why this is happening is because they can safely socialize with each other using social networks. No doubt that opportunities which the internet provides are enormous. Two persons who are situated in the opposite parts of the world can easily communicate with each other. All they need is a computer program and an access to the Internet. But there are some dangers as well. For example, some teenagers get addicted to the internet. Also kids spend all free time there. In summary, I can say that children should be limited from the excessive use of the Internet.
